PRE-SALE: LEVELING THE PLAYING FIELD FOR COMMUNITY MEMBERS

Before our fair launch, Coinbuck introduces a pre-sale phase, designed to give retail investors and community members an equal opportunity with institutional players and whales. This pre-sale is a strategic move to mitigate the typical bot activities and aggressive trading behaviors often seen during public launches. By participating in the pre-sale, our community members can secure their stake in Coinbuck at an early stage, ensuring a more democratic and balanced entry for all.

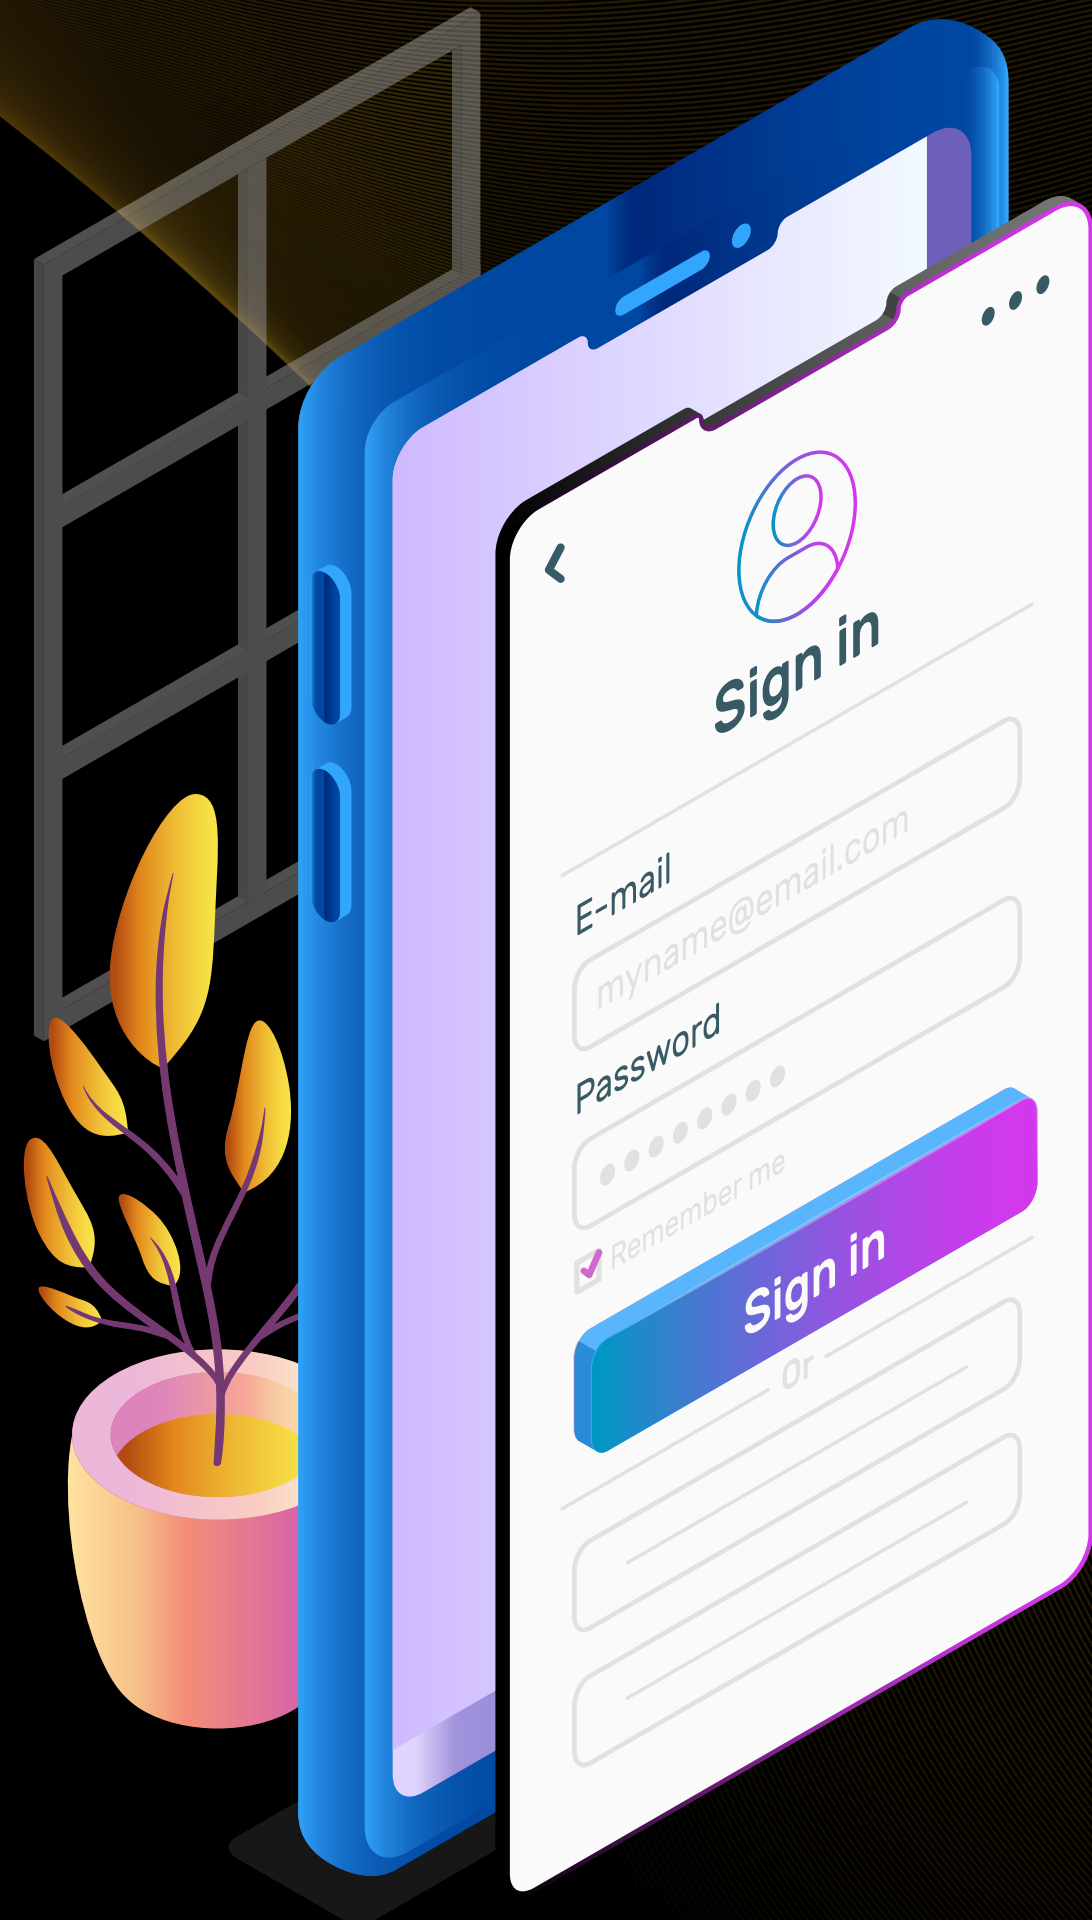

In this crucial phase, participants have the unique chance to secure their allocation/purchase in Coinbuck, solidifying their position in the ecosystem. This step is vital for those who wish to be at the forefront of our innovative platform, offering a head start in the dynamic world of cryptocurrency and social media.

FAIR & RARE LAUNCH: A COMMITMENT TO EQUALITY

Coinbuck is committed to a fair launch strategy, where 100% of the token supply is made available and added to the liquidity pool of the AMM DEX at the launch (Token Generation Event). This approach aligns with the ethos of cryptocurrency, offering an equal opportunity for everyone, with NO special privileges for our founders, team, and partners.

EVERYONE (You and all of us) will BUY the token from the Public pools (AMM DEX) post-launch.

In a world where initial coin offerings (ICOs) and token distributions often favour a select few, Coinbuck champions a more equitable distribution model.
